

## Table of contents

|  |           |
|--|-----------|
| <i>Daniel Amariei, Ion Vela, Gilbert-Rainer Gillich,<br/>Călin Octavian Miclosină</i>  |           |
| <b>Model Equations of Shape Memory Effect - Nitinol</b>  | <b>11</b> |
| <br>   |           |
| <i>Olga Ioana Amariei, Dennis Fourmaux, Constantin Dan<br/>Dumitrescu</i>  |           |
| <b>The Way of Establishing a Relative Position for Some<br/>Production Units</b>   | <b>17</b> |
| <br>   |           |
| <i>Mihai Apreutesei, Emil Suciu, Ionela Roxana Arvinte</i>   |           |
| <b>Lean Manufacturing - A Powerfull Tool for Reducing<br/>Waste During the Processes</b>   | <b>23</b> |
| <br>   |           |
| <i>Rodica Gabriela Blidisel, Adina Simona Popa, Raimondo Lo<br/>Russo, Maria Moraru</i>  |           |
| <b>Clusters Regarding Key Factors Affecting Changes in<br/>Accounting, Finance, Administration and Management<br/>Control</b>    | <b>35</b> |
| <br>   |           |
| <i>Alexandru Boltoși, Cristina Oprițescu, Amalia Țirdea</i>  |           |
| <b>Magneto Rheological Semi-Active Damper with External<br/>By-pass Circuit in Modular Structure</b>                             | <b>41</b> |
| <br>   |           |
| <i>Ana – Maria Budai, Andrea Minda</i>   |           |
| <b>Analytical Method to Estimate Fatigue Life Time<br/>Duration in Service for Runner Blade Mechanism of<br/>Kaplan Turbines</b> | <b>49</b> |
| <br>   |           |
| <i>Ana – Maria Budai, Vasile Cojocaru, Camelia Jianu</i>   |           |
| <b>Influence of Working Environment on Fatigue Life Time<br/>Duration for Runner Blades of Kaplan Turbines</b>                   | <b>57</b> |
| <br>   |           |
| <i>Virgil Dan Cărămidaru, Ion Vela</i>   |           |
| <b>Heat Treatments and Materials Used in the Manufac-<br/>turing of the Gear Wheels</b>  | <b>65</b> |

|   |            |
|---|------------|
| <i>Cristian Paul Chioncel, Dieter Kohake, Petru Chioncel,<br/>Ladislau Augustinov</i><br><b>Solar Photovoltaic Plant for the “Eftimie Murgu”<br/>University of Resita</b> | <b>75</b>  |
| <i>Cristian P. Chioncel, Leo Schiefermueller, Petru Chioncel,<br/>Nicoleta Gillich</i><br><b>Complex Technical Solution for Renewable Energy</b>                          | <b>81</b>  |
| <i>Adrian Chivu, Tiberiu Ștefan Mănescu</i><br><b>Noise Map - A Necessity</b>   | <b>85</b>  |
| <i>Liviu Coman</i><br><b>The Influence of Some Factors on Maximum Depth in<br/>Electrohydraulic Forming</b>   | <b>93</b>  |
| <i>Liviu Coman, Draghita Ianici, Codruta Hamat</i><br><b>A Method to Study Thickness Reduction in<br/>Electrohydraulic Forming of Cones</b>                               | <b>99</b>  |
| <i>Tiberiu Cujbă</i><br><b>Check Interior Surfaces of the Oil Conservatories of the<br/>Power Transformers</b>  | <b>109</b> |
| <i>Florențiu Deliu, Gheorghe Samoilescu</i><br><b>Analysis of the Transitional Process into Naval Electrical<br/>Equipment</b>  | <b>117</b> |
| <i>Branislav Dragović, Nenad Dj. Zrnić, Elen Twrdy, Dong-<br/>Keun Rooy</i><br><b>Ship Traffic Modeling and Performance Evaluation in<br/>Container Port</b>              | <b>127</b> |
| <i>Viorel Goanță</i><br><b>Calculation Method for the Displacements of Cross<br/>Sections for Unsupported Straight Bars Subjected to<br/>Axial or Torsion Loads</b>       | <b>139</b> |
| <i>Adrian Irimescu</i><br><b>Study of Volumetric Efficiency for Spark Ignition<br/>Engines Using Alternative Fuels</b>  | <b>149</b> |

|  |            |
|--|------------|
| <i>Camelia Jianu</i><br><b>Computer Aided Design of Kaplan Turbine Piston with SolidWorks</b>  | <b>155</b> |
| <i>Camelia Jianu, Ana Maria Budai, Constantin Viorel Câmpian</i><br><b>Computer Aided Design of the link-fork head-piston assembly of the Kaplan turbine with Solidworks</b>   | <b>165</b> |
| <i>Zoltan Korka</i><br><b>Dynamic Modelling of a Single Stage Cylindrical Gearbox</b>  | <b>175</b> |
| <i>Cinca Ionel Lupinca, Ileana Veronica Rigou, Cornelia Ecaterina Cornean</i><br><b>The Tendencies of Piece Casting from Modified Iron</b>   | <b>183</b> |
| <i>Constantin Marta, Ioan Ruja, Marius Tufoi, Viorel Bizau, Lenuta Suci, Monica Rosu</i><br><b>Studies Regarding the Elaboration of the Manganese Austenitic Steel in the Induction Electric Furnace with Acid Coating</b> | <b>195</b> |
| <i>Petru Florin Minda, Ana – Maria Budai</i><br><b>Application of Mathematica Software for Estimate the Fatigue Life Time Duration of Mechanical System</b>  | <b>203</b> |
| <i>Daniela-Elena Mitu, Feiza Memet</i><br><b>Methods of Reducing Emissions from Two-stroke low-speed Diesel Engines</b>  | <b>209</b> |
| <i>Ion-Cornel Mituletu, Ion Vela, Marius Tufoi, Daniel Amariei</i><br><b>Mathematical Model for the Contact Stress Calculation of Fluoropolymerized Toothed Wheels</b>   | <b>221</b> |
| <i>Attila Nagy, Levente Benedek, Mircea Bejan</i><br><b>Analysis of Main Types of Vibrations at a Bridge for Passer-Byes</b>   | <b>227</b> |

|  |            |
|--|------------|
| <i>Dorian Nedelcu, Draghita Ianici, Marian Nedeloni, Daniel Daia</i>   |            |
| <b>Numerical Behavior Reproduction of a Truss Structure and Beam, Subjected to Concentrated Load</b>                                     | <b>235</b> |
| <i>Iuliu Petrica, Adrian Valentin Petrica</i>  |            |
| <b>Optimal System for the Compensation of the Reactive Power with Synchronous Motors</b>   | <b>243</b> |
| <i>Iuliu Petrica, Adrian Valentin Petrica</i>  |            |
| <b>The Compensation of the Reactive Power with Synchronous Motor</b>   | <b>247</b> |
| <i>Iuliu Petrica, Adrian Valentin Petrica</i>  |            |
| <b>Air Compressor Driving with Synchronous Motors at Optimal Parameters</b>  | <b>253</b> |
| <i>Eugen Răduca, Mihaela Răduca, Lucian Ghinea, Aki Uyetani</i>  |            |
| <b>Model for the Study of Automating a System of Pumping Water from Upstream to Downstream Hydropower Plant Using Siemens S7-200 PLC</b> | <b>259</b> |
| <i>Ioan Ruja, Florin Breaban, Constantin Marta, Marius Tufoi, Viorel Bizau,</i>  |            |
| <b>Laboratory Facilities for Testing Thermal Engines</b>   | <b>265</b> |
| <i>Gheorghe Samoilescu, Florențiu Deliu, Mircea Constantinescu</i>   |            |
| <b>Stationary Magnetic Field of an Electric Circuit Laid out on the Floatation of a Ship</b>   | <b>275</b> |
| <i>Lenuța Suciu, Iancu Tătucu, Constantin Marta, Marius Tufoi, Cornel Hatiegan</i>   |            |
| <b>The Stand for Determination of Service Performance in Load of a Welding Transformer Using the LabVIEW Environment</b>                 | <b>285</b> |

|   |            |
|---|------------|
| <i>Gelu Ovidiu Tirian, Camelia Pinca-Bretotean, Cristian Abrudean, Cristian Chioncel</i><br><b>Analytical Identification, Simulation and Analysis of Steel Solidification Process in Crystallizer</b> | <b>293</b> |
| <i>Marius Tufoi, Ion Vela, Constantin Marta, Mihaela-Dorica Stroia</i><br><b>Microcontroller's Applications in Driving of Industrial Robots</b>   | <b>305</b> |
| <i>Adelin Ionel Tuță, Ion Vela, Marius Tufoi</i><br><b>Sizing of Compression Coil Springs Gas Regulators Using Modern Methods CAD and CAE</b>   | <b>315</b> |
| <i>Amalia Țirdea, Cristina Oprițescu, Mihai Toader</i><br><b>On Dynamic Systems with Piecewise Linear Feature</b>   | <b>323</b> |
| <i>Emanuel Zgârdea, Ladislau Augustinov</i><br><b>Improving IT infrastructure Management Using Nagios open source package</b>   | <b>329</b> |
| <i>Daniel Vela, Dorian Nedelcu, Ion Vela</i><br><b>Determination of Double Flexible Toothed Wheel Length Function of Elasticity Module (E)</b>  | <b>337</b> |
