

Table of contents

<i>Silviu Nastac, Cristian Simionescu</i> Theoretical Assessments on Dynamics of Helical Flexible Coupling within Vibratory Equipments	9
<i>Gigel Florin Capatana</i> Basic Approaches of Complex Interaction Drum-Terrain for Vibratory Compaction	15
<i>Aurora Potirniche</i> Particular Approaches about Symmetrical Structures Dynamics	23
<i>Petrică-Horatiu Suătean</i> Issues Regarding the Mechanical Behavior of the Romanesque Roof Structure - Lutheran Church of Sebes	33
<i>Nicoleta Cobîrzan, Anca-Andreea Balog</i> The Influence of Porosity and Bioclastic Contents on Limestones Decay	43
<i>Patricia Murzea</i> Determination and Verification of the main Dynamic Characteristics of a Spatially Large Structure Using the Basic Records Combination Method	51
<i>Nurbasirah Mohamed Alias, Md Azree Othuman Mydin</i> Various Forms of Project Delay in the Construction Industry	61
<i>Tan Sin Wen, Md Azree Othuman Mydin</i> Distinctive Structural and Non-Structural Building Defects and Failures in Educational Buildings	67
<i>Md Azree Othuman Mydin</i> Potential Implementation of Green Prefab System in	77

Malaysian Construction Industry

- Masyatul Husna Othman, Md Azree Othuman Mydin*
Essential Approach of Maintenance Management System of Office Building 92
- Nurul Rezuana Buyung, Md Azree Othuman Mydin, Abdul Naser Abdul Ghani*
Investigation on Prefabricated Building System Skilled Component Installers 105
- Md Azree Othuman Mydin*
Engineering Performance of High Strength Concrete Containing Steel Fibre Reinforcement 121
- Marhamah Abdul Hadi, Md Azree Othuman Mydin, Noor Faisal Abas*
Investigation on Adaptive Re-use of Heritage Building in George Town, Penang 133
- Nurbasirah Mohamed Alias, Md Azree Othuman Mydin*
Critical Causes and Consequences of Construction Project Interruption: Client, Contractor, Consultant and External Factors Standpoints 155
- Silviu Nastac*
On Damage Detection in Beams based on Dynamic Tests and Transitory Analysis 164
- Nicoleta Gillich, Andrea Minda, Zeno-Iosif Praisach, Carla Protcasil, Peter Lorenz, Gilbert-Rainer Gillich*
Reliability Study Regarding the Use of Histogram Similarity Methods for Damage Detection 171
- Petru-Florin Minda, Nicoleta Gillich, Peter Lorenz, Gilbert-Rainer Gillich, Florian Muntean*
On the Robustness of the Minkowski Distance for Histogram Dissimilarity Evaluation with Focus on 179

Damage Location in Beam-Like Structural Elements

*Vasile Iancu, Carla Protocsil, Nicoleta Gillich,
Cornel Hatiegan, Gilbert-Rainer Gillich*

**The Influence of the Number of Finite Elements upon
the Accuracy of the Results Obtained Using Discrete
Models** 189

Marian Țigănașu, Petru Dumitrache

**Experimental Research of the Behavior of a Bus
Structure in Case of Rollover** 199

Marian Țigănașu, Tiberiu Mănescu, Petru Dumitrache

**About the Study of the Bus Structure Behavior in
Case of Rollover, Using Numerical Simulation** 207

Radu Panaitescu-Liess

**Experimental Research on the Influence of Vibration
on Fingers Mobility** 213

*Tufoi Marius, Hatiegan Cornel, Gilbert-Rainer Gillich,
Carla Protocsil, Ionică Negru*

**Frequency Changes in Thin Rectangular Plates due to
Geometrical Discontinuities. Part I: Finite Element
Analysis** 221

*Tufoi Marius, Hatiegan Cornel, Gilbert-Rainer Gillich,
Ovidiu Vasile*

**Frequency Changes in Thin Rectangular Plates due to
Geometrical Discontinuities. Part II: Frequency Shift
Interpretation** 233

Radu Panaitescu-Liess, Cristian Pavel, Florin Bausic

**Experimental Research on the Influence of Vibration
on Knee Mobility** 245

Ioan Golumbu, Cristian Golumbu, Peter Lorenz

Simulation of Static Behavior of Corroded Pipes in 253

Operation, Reinforced Elastic

Ioan Golumbu, Cristian Golumbu, Dorian Nedelcu, Peter Lorenz

Calculation of the Pipe Work Concentrator Equipped with Rectangular Openings 259

Polidor Bratu

Numerical Monitoring of the Dynamic Behavior in Frequency of the Parametric Systems in Forced Vibration Regime 263

Carmen Alexandru

Dynamic Response of a System under Anti-Vibration Forced Regime Depending on the Settlement Angle of the Elastomeric Isolators 271

Ramona Pințoi

Correlation of the Process of Concrete Compaction through Vibration with the Internal Dissipation of the Energy 277

Philipa O. Idogho, Olotu Yahaya

Calibration of System Input Volume and Non-Revenue Water Index in Edo North, Nigeria 285

Madalina Calbureanu, Raluca Malciu

Modal Analysis of a Building with Dynamic Behavior of an Elastic Constrained Rigid, Subjected to Seismic Actions 300

Tayyeb PourReza, Navid Bozorgan, Amin Farzin, Saeed Roohi

Studying the Mechanical Properties of Graphynes Using Molecular Dynamics Simulations 309
