

Table of contents

Modeling and simulation of electric drives

<i>George Mihalache, Gheorghe Livint, Vasile Horga</i> A New Method for Modeling and Control of Hybrid Stepper Motors	13
<i>Corneliu Botan, Florin Ostafi</i> Optimal Control of an Electrical Drive System with Variable Torque	25
<i>Marian Gaiceanu, Razvan Buhosu, Gelu Gurguiatu, Ciprian Daniel Balanuta</i> Current Control of the Single-Phase Full-Bridge Power Inverter	37
<i>Marius Constantin Georgescu</i> Flywheel Energy Storage Drive System for Wind Applications	47
<i>Ioan Ruja, Elisabeta Spunei, Constantin Marta, Ion Piroi, Monica Roşu</i> Study on the Identification of an Actuator	53

Acquisition and monitoring systems

<i>Gheorghe-Eugen Subtirelu, Mircea Dobriceanu, Adela-Monica Enache, Nicolae Boteanu</i> Monitoring System Dynamic Regimes with Variable Reluctance Synchronous Motors	63
<i>Ionel Laurentiu Alboteanu, Gheorghe Manolea, Florin Ravigan</i> Integrated Photovoltaic System Used as an Alternative	73

Power Source

- Marian Gaiceanu, Razvan Solea, Bogdan Codres, Cristinel Eni*
On-line Identification of the DC motor Parameters by using Least Mean Square Recursive Method 83
- Gabriela Rață, Mihai Rață*
System for Monitoring and Analysis of Vibrations at Electric Motors 95
- Marinel Popescu, Cătălin Dobrea, Ștefan Șeitan*
A.c. Power Measurement Using Power Analyzer Associated with External Transducers. Accuracy and Uncertainty Evaluation 103
- Virginia Ivanov, Maria Brojboiu, Sergiu Ivanov*
Diagnosis System for Elements Power Rectifiers 115
- Victor Popescu*
Reliability Evaluation of Electrical Networks 123
- The energy in electric drive systems**
- Walter Sattinger*
Power System Restoration with Black-Start Pump Storage Power Plants 129
- Virgil Maier, Sorin G. Pavel, Iulian Birou, Horia G. Belei*
Technical and economic analysis of Soft Starter Providing in LV Electrical Installation 135
- Victor Popescu*
Determination of the Level of Influence of Various Factors on the Reliability of Power System 145

<i>Alexandru Bitoleanu, Mihaela Popescu, Vlad Suru</i> High Performance Shunt Active Power Filter: Design Consideration and Experimental Evaluation	151
<i>Mihaela Popescu, Mircea Dobriceanu, Gheorghe Oprea</i> Improving Compensation Performance in Three- Phase Active Power Line Conditioners by DC-Voltage Control	165
<i>Constantin Vlad Suru, Mihaita Linca, Cristina Alexandra Patrascu</i> Evaluation of Current Control Methods in Three- Phase Shunt Active Power Filters System	175
<i>Gheorghe Hazi, Aneta Hazi</i> Considerations on Numerical Protections for Induction Motors Connected in MV Industrial Power Systems	187
<i>Gheorghe Hazi, Aneta Hazi</i> Calculation of Industrial Power Systems Containing Induction Motors	199
<i>Nicolae Badea, Madalin Costin</i> Gas Boiler Powered by the Fuel Cell System	209
Electromagnetic compatibility	
<i>Adina Racasan, Calin Munteanu, Vasile Topa, Claudia Pacurar, Claudia Hebedean</i> Improving Filter Performances for Conducted Electromagnetic Interferences Suppression	221
<i>Ion Teodor Ciochiiu, Viorel Osiac, Bebe Huza, Gherghe Marius Leonard Ciurezu, Anemona Madalina Mousavi</i> Retention of Powders from Flue Gases Resulted from the Combustion of Lignite in High Energy Boilers in Thermal Power Stations	233

Ion Teodor Ciochiu, Viorel Osiac, Anemona Madalina Mousavi, Bebe Huza, Leonard Gherghe Marius Ciurezu
Powder Collection from Flue Gases Resulting from the Burning of Lignite in Boilers from High Power Energy Power Plants 245

Educational technology in teaching electrical disciplines

Elisabeta Spunei, Ion Piroi, Florina Piroi
Optimizing Street Lighting Systems Design 255

Elisabeta Spunei, Ion Piroi, Florina Piroi
Notes on LED Installations in Street Illumination 267

Silviu Draghici, Cornelia Victoria Anghel Drugarin, Andrea Amalia Minda, Mihaela Raduca, Eugen Raduca
Educational Approach to Information Transmission Channels of Data from Two Different Viewpoints: Combinatorial and Probabilistic 279

Cristian Paul Chioncel, Ladislau Augustinov, Valentin Nedelea, Petru Chioncel, Raduca Eugen
Overview of the Orientation of Solar Generator Surfaces for Photovoltaic (PV) Systems 289

Petru Chioncel, Draghici Silviu, Cristian Paul Chioncel
Calculation of Control Circuits in Time Domain using Scilab/ Xcos Environment 295

Petru Chioncel, Elisabeta Spunei, Cristian Paul Chioncel
Calculation of Control Circuits in Frequency Domain using Scilab Environment 301

Gillich Nicoleta, Cristian Paul Chioncel
The Role of Mentoring in Entrepreneurship Training PREMIO Case Study 307
